IPI Level 1 Teacher Training

16 March 2016 - Source: TTA website

This course was very informative and practical. I could see the benefits to our school straight away. I really like the practical classroom experience. Thank you
- Christina

The course was well presented with all the questions answered. The strategies given were very useful - Laurindah

I feel well informed to start the process at school - Julie

I found this very interesting. I didn't have a clue what this course entailed but afterwards I have a better understanding of levels of student engagement. Great to be more aware of HOT/LOT and the differences. Sabreena was lovely.

Learned much. Practical and very useful. Hoping to implement on student learning growth.

Sabreena was fantastic and very informative. I felt like all my questions were answered.

Sabreena has a wealth of knowledge on IPI. She was interesting and had a very relaxed manner. It really made me think about my own teaching practice.

Enjoyed learning the process and structure of the coding. Gained a lot of knowledge and confidence throughout the day.

Very clearly delivered. Looking forward to the next step in the process.
